

DELAWAR SHAH

FRONT-END WEB DEVELOPER

PROFILE

Front-End Developer with 4+ years delivering production-ready web applications using React.js, Next.js, and TypeScript. Proven track record across 15+ client projects — including a live UK e-commerce platform (printingzones.co.uk) — with measurable results: ~30% faster load speeds and ~40% reduction in manual reporting time. Skilled in Figma-to-code delivery, REST API integration, and AI-assisted development with hands-on code review experience.

WORK EXPERIENCE

Front-End Developer

Flaxen Paints Industry LLC, Umm Al Quwain, UAE

 March 01, 2024 – Present

- Developed and maintained ERP modules for sales, inventory, and accounts using Next.js and Tailwind CSS, reducing manual reporting time by ~40%.
- Built a modern, responsive company website with cross-browser compatibility, improving page load speed by ~30% through code optimization and lazy loading.
- Integrated ERP features with the website for seamless real-time product and stock updates, eliminating data sync delays.
- Improved UI/UX by implementing clean layouts, reusable component library, and responsive styling — reducing design inconsistencies across 10+ pages.
- Collaborated with backend developers and designers to integrate REST APIs and business logic, ensuring smooth end-to-end delivery.
- Reviewed and refined AI-generated frontend code for correctness, maintainability, and performance before production deployment.
- Deployed all projects on GitHub with structured version control, enabling team collaboration and future scalability.

Front-End Web Developer

I Dot Solution, Pakistan

 March 2020 – February 2024

- Developed and launched 15+ client websites using React.js, Next.js, and WordPress, ensuring pixel-perfect responsive design across all devices and browsers.
- Translated Figma and Photoshop mockups into high-fidelity interfaces, consistently delivering designs with less than 5% deviation from original specs.
- Implemented Tailwind CSS and custom CSS across multiple projects, achieving modern layouts and consistent branding that reduced styling rework by ~35%.
- Integrated 10+ third-party APIs and plugins (payment gateways, inventory systems, analytics) to extend website functionality and automate manual workflows.

PERSONAL INFO

Nationality: Pakistani

SKILLS

Front-End

- HTML5
- CSS 3
- JavaScript (ES6+)
- TypeScript
- React.js,
- Next.js
- Tailwind CSS
- Responsive & Cross-browser Design

Tools & Version Control

- Git
- Git Hub
- WordPress
- REST APIs

Design Tools:

- Figma
- Photoshop,
- Illustrator
- Canva

AI & Code Quality

- AI-Assisted Development (GitHub Copilot, Claude)
- Code Review & Quality Assessment
- Debugging & Edge Case Analysis
- Accessibility & Performance Auditing (Lighthouse)

Others:

- UI/UX Principles
- SEO basics

LANGUAGES

- English
- Urdu
- Pashto

REFERENCE

References available upon request

- Optimized website performance through code splitting, lazy loading, and asset compression — improving load speed by ~30% across all delivered projects.
- Used AI coding tools to accelerate development, then manually reviewed generated code for edge cases, bugs, and failure modes before deployment.
- Participated in client meetings and project planning sessions, providing technical input that helped reduce scope creep and delivery delays.
- Managed version control and team collaboration workflows using Git and GitHub across all projects.

SELECTED PROJECTS

Printing Zones — UK E-commerce Platform

Next.js, React, TypeScript | printingzones.co.uk Built instant-quote engine, product catalog & checkout for UK print business.

POS Solar Dashboard

Next.js, Tailwind CSS | possolar.idotsolution.com Real-time monitoring dashboard for solar inventory & production.

Flaxen Paints Redesign

Next.js, Tailwind CSS | flaxen-paints.vercel.app Full website redesign with modern UI/UX.

DevBizTools — Freelance Tools Platform

Next.js, TypeScript, Tailwind CSS | devbiztools.com
Built a freelance tools website with 5 interactive calculators and 15+ SEO-optimized articles. Achieved 99/100 PageSpeed score. Integrated Analytics, newsletter, and AdSense monetization.

KEY STRENGTHS:

- Front-End Development (React.js, Next.js, TypeScript)
- Performance Optimization & Cross-browser Compatibility
- API Integration & Third-Party Services
- ERP & Dashboard Module Development
- UI/UX Implementation from Figma/Photoshop Designs
- AI-Generated Code Review & Quality Assessment
- Debugging, Edge Case Identification & Failure Mode Analysis
- Git & GitHub Version Control
